Temperature Interface

- + inCelsius(): double
- + inFahrenheit(): double
- + inKelvin(): double
- + average(Temperature t): Temperature

AbstractTemperature

ABS_ZERO_C: double

- + inCelsius(): double
- + inFahrenheit(): double
- + inKelvin(): double
- +compareTo(temperature): int

CelsiusTemperature

- temperature: double
- + inCelsius(): double
- + inFahrenheit(): double
- +inKelvin(): double

+average(Temperature): Temperature

- + toStirng(): String
- +compareTo(temperature): int

FahrenheitTemperature

- temperature: double
- + inCelsius(): double
- + inFahrenheit(): double
- + inKelvin(): double
- + average(Temperature): Temperature
- + toStirng(): String
- +compareTo(temperature): int
